

## 2018

- [1] Saikia J. (2018). Liquefaction Potential Evaluation of Guwahati City-- Conference Paper. *2nd International Conference on Civil Engineering for Sustainable Development Opportunities and Challenges (CESDOC)*, Assam Engineering College, Guwahati, India
- [2] Saikia J. (2018). Study of the engineering properties of crushed stone dust of Gauripur quarry and Rani quarry for their utility as construction material. *Conference Paper NCRAS-2018*.
- [3] Kaushik S. (2018). Design drift requirements for buildings with RC shear walls. *16th Symposium on Earthquake Engineering, 20-22 December 2018, Institute of Technology Roorkee, Roorkee, India*. Paper No. 269
- [4] Kaushik S. (2018). Plastic hinge length at RC shear wall and floor slab junction. *2nd International Conference on Civil Engineering for Sustainable Development Opportunities and Challenges (CESDOC)*, 18-19 December 2018, Assam Engineering College, Guwahati, India, Paper No. SINO306
- [5] Kaushik, S., & Dasgupta, K. (2019). Seismic behaviour of RC slab–shear wall assemblage using nonlinear static and dynamic analyses. In *Recent Advances in Structural Engineering, Volume 2* (pp. 219-231). Springer, Singapore. [http://doi.org/10.1007/978-981-13-0365-4\\_19](http://doi.org/10.1007/978-981-13-0365-4_19) ISBN: 978-981-13-0364-7

## 2019

- [1] Kaushik, S., & Dasgupta, K. (2019). Seismic behavior of slab-structural wall junction of RC building. *Earthquake Engineering and Engineering Vibration*, 18(2), 331-349. <https://doi.org/10.1007/s11803-019-0507-8>
- [2] Bhuyan, K., Sah, A. K., and Sharma, H. (March 2019). Practical Application of High Strength Concrete Matrix for Use in Defense Establishments, *In Proceedings of the International UKIERI Concrete Congress, Jalandhar, India*, pp. 90.

## 2021

- [1] Kaushik, S., Saikia, T. N., Syed, S. M. H., Jafri, S., & Baruah, B. (2021). Response of Multistoried Building Considering Soil-Structural Interaction Under Lateral Loading. In *Seismic Design and Performance* (pp. 247-258). Springer, Singapore. [https://doi.org/10.1007/978-981-33-4005-3\\_20](https://doi.org/10.1007/978-981-33-4005-3_20) ISBN: 978-981-334-004-6
- [2] Kaushik, S., & Dasgupta, K. (2021). Seismic Response of Shear Wall–Floor Slab Assemblage. In *Advances in Structural Vibration* (pp. 105-115). Springer, Singapore. [https://doi.org/10.1007/978-981-15-5862-7\\_10](https://doi.org/10.1007/978-981-15-5862-7_10)

- [3] Bhuyan, K., Jujjavarapu, K. K., & Sharma, H. (2021). Performance Evaluation of Two-Way RC Slab Subjected to Blast Loading Using Finite Element Analysis. In *Advances in Structural Technologies* (pp. 57-70). Springer, Singapore. [https://doi.org/10.1007/978-981-15-5235-9\\_5](https://doi.org/10.1007/978-981-15-5235-9_5)
- [4] Kaushik, S., Saikia, T. N., Syed, S. M. H., Jafri, S., & Baruah, B. (2021). Response of Multistoried Building Considering Soil-Structural Interaction Under Lateral Loading. In *Seismic Design and Performance* (pp. 247-258). Springer, Singapore.
- [5] Kaushik, S. and Dasgupta, K. (2021). Analytical Study on Seismic Behavior of Rectangular Shear Wall Connected to Floor Slabs. *12th Structural Engineering Convection* (SEC2020+1), NCDMM and MNIT Jaipur, Rajasthan, India, 17-19 December 2020 (rescheduled to 17-19 December 2021) (*paper accepted for presentation*)

## 2022

- [1] Kaushik, S. (2022). Seismic Response of RCC Building under Column Removal Scenario. *International Research Journal of Engineering and Technology (IRJET)*. Volume 9, Issue 3, March 2022, S. No: 356.
- [2] Kaushik, S., Nath, S. S., and Das, T. (2022). Impact Assessment of Plastic Strips on Compressive Strength of Concrete. *North-East Research Conclave, Sustainable Science and Technology (NERC 2022)*, Indian Institute of Technology Guwahati, Guwahati, India, 20-22 May 2022, (Track 6-Disaster Management).
- [3] Gangolu, J., Kumar, A., Bhuyan, K., & Sharma, H. (2022). Performance-based probabilistic capacity models for reinforced concrete and prestressed concrete protective structures subjected to missile impact. *International Journal of Impact Engineering*, 164, 104207. <https://doi.org/10.1016/j.ijimpeng.2022.104207>
- [4] Gangolu, J., Kumar, A., Bhuyan, K., & Sharma, H. (2022). Probabilistic demand models and performance-based fragility estimates for concrete protective structures subjected to missile impact. *Reliability Engineering & System Safety*, 223, 108497. <https://doi.org/10.1016/j.res.2022.108497>
- [5] Kishore, K. B., Gangolu, J., Ramancha, M. K., Bhuyan, K., & Sharma, H. (2022). Performance-Based Probabilistic Deflection Capacity Models and Fragility Estimation for Reinforced Concrete Column and Beam Subjected to Blast Loading. *Reliability Engineering & System Safety*, 227, 108729. <https://doi.org/10.1016/j.res.2022.108729>
- [6] Bhuyan, K., & Sharma, H. (2022). Reliability Analysis and Performance-Based Code Calibration for Slabs/Walls of Protective Structures subject to Air Blast Loading. *Reliability Engineering & System Safety*, 228, 108751. <https://doi.org/10.1016/j.res.2022.108751>
