## PROF. LALOO'S EXPERT INSIGHTS SET THE STAGE FOR ADVANCED PHYTOCHEMICAL TECHNIQUES AT GAUHATI UNIVERSITY

AZARA, July 26: The Institutional Biotech Hub under the Department of Biotechnology at Gauhati University, Assam (India), in collaboration with Guwahati Biotech Park and UGC-MMTTC, Gauhati University, organized a seven-day workshop from July 22 to 28, 2024, themed 'Advanced Tools and Techniques in Phytochemical Extraction and Identification.' Sponsored by the Department of Biotechnology, Govt. of India, the workshop aimed to impart knowledge, skills, and training to faculty and research scholars from diverse fields of science and technology in the region.

On July 22, 2024, Prof. Damiki Laloo, Director of RDC and faculty member from the Department of Pharmacognosy, School of Pharmaceutical Science, Girijananda Chowdhury University, delivered a keynote lecture. He enlightened the delegates on his research topic, 'Basics of Extraction, Standardization, and Identification of Phytochemicals,' showcasing his research outcomes in natural products and their applications in medicine and nutraceuticals. Prof. Laloo's visit to the Department of Biotechnology is expected to foster strong mutual research collaborations with the university's faculty and scholars in the near future.

Prof. Damiki Laloo being felicitated at Dept. Of Biotechnology, Gauhati University.

Diving deep into the world of phytochemistry with Prof. Damiki Laloo.
