Prof. Damiki Laloo Elevates Academic Discourse at B. Borooah College's Workshop on Biotechniques

AZARA, December 07: In a dynamic display of academic collaboration, Prof. Damiki Laloo, Professor and HOD, Dept. of Pharmacognosy, School of Pharmaceutical Sciences (GCU) delivered a captivating lecture at B. Borooah College, Guwahati, on December 1, 2023. The lecture was part of a workshop on "Biotechniques," organized by Advanced Level Institutional Biotech Hub, in collaboration with IQAC, B. Borooah College from 29th November 2023 to 1st December 2023, where Dr. Laloo's expertise provided invaluable insights into the impact of quality control standardization of herbal medicine, with a focus on the miraculous plant *Potentilla fulgens*. The workshop organized by B. Borooah College, was enriched by Prof. Damiki Laloo's lecture, titled "PHARMACOGNOSY - and Impact of Quality Control Standardization of Herbal Medicine with Special Emphasis on *Potentilla fulgens*: A Systematic Approach." The talk delved into the intricacies of pharmacognosy, shedding light on the systematic approach to studying herbal medicines and emphasizing the importance of maintaining quality control standards. The event took on added significance due to the existing Memorandum of Understanding (MoU) between our institution and B. Borooah College. The collaborative spirit fostered by this agreement was evident as both institutions work towards mutual goals, including the facilitation of exchange activities and joint initiatives. Prof. Damiki Laloo's lecture not only contributed to the academic enrichment of the participants but also served as a catalyst for further discussions on potential collaborative ventures. The emphasis on *Potentilla fulgens*, a miracle plant with promising medicinal properties, opened avenues for future research collaborations and pharmaceutical advancements.

Prof. Damiki Laloo Captivating the Audience with a Transformative Lecture.
