Catalysing Diversity in Science

AZARA, March 05: A team of 31 B.Tech. 8th Semester civil engineering students along with two faculty members underwent for an educational tour to Shimla, Manali and Delhi from 16th to 24th Feb, 2024. The students had the opportunity to visit several significant sites related to civil engineering in the region. The objective of the educational tour was to provide exposure among students to gain practical knowledge on different aspects of civil engineering constructions especially hilly terrain. The students visited Atal Tunnel, Pandoh Dam, Pandoh Takoli Dam, Hampta Dam and Kiratpur Dam. The students visited Green Valley, Rashtrapati Niwas (Mashobra), Kufri and Christ Church. They visited a flyover construction site at Longwood area and the students gained practical knowledge about the construction activities on hilly terrain. They visited Solang Valley to witness the snowfall and visited Vasisth Temple, Hadimba Temple and the Mall Road of Manali. They went to Kullu and visited the Kullu Shawl Factory, Aut Tunnel, Kasol, Manikaran Shiva Temple, Manikaran Gurudwara and Manikaran hot water spring. They went to Tihra Tunnel at Kiratpur-Manali Road (Bilaspur) and a stop at Hataun during journey towards Delhi. During the education tour faculties explained to the students about the construction techniques and other aspects of construction in hilly region and cold regions. During the tour, the students gained valuable insight to the challenges faced by civil engineers during construction in the mountainous terrain. The tour witnessed not just civil engineering structures including buildings and dams but also the challenges in road construction in hilly and cold regions. The tour enriched the educational journey of the students and contributed to their overall development as aspiring civil engineers.
