ROBOTICS AND INNOVATION CLUB, GCU SUCCESSFULLY HOSTS WORKSHOP "BUILD THE BOT: MASTERING ROBOTICS COMPETITIONS"

AZARA, October 5: The Robotics and Innovation Club at Girijananda Chowdhury University (GCU) organized a workshop titled "Build the Bot: Mastering Robotics Competitions" on 24th September, 2024. The workshop began with an introductory speech from Dr. Kankan Kishore Pathak, the faculty coordinator of the club, who warmly welcomed and introduced the guest expert, Mr. Arindom Sensuwa. Mr. Sensuwa, a GIMT Guwahati alumnus and a seasoned robotics expert, shared his inspiring journey of participating and excelling in various national robotics competitions. His engaging session motivated the students to actively participate in building their own bots. The workshop also provided a comprehensive understanding of robotic parts, types, and their applications in real-world scenarios. In an interactive quiz session, students engaged enthusiastically with the expert, earning rewards like robot parts. Mr. Sensuwa further illustrated the bot-building process with practical demonstrations and provided detailed information on how to prepare for various robotics competitions at the University, National, and International levels.

The highlight of the workshop was an exciting hands-on task where student members were challenged to create robotic links using simple materials like ice cream sticks, pins, glue, and paper. The enthusiastic participation of the students and their creativity made the workshop a grand success. Faculty members also joined in, making it a vibrant and collaborative event. This workshop marked another milestone for the growing Robotics and Innovation Club at GCU, reinforcing the importance of hands-on learning and encouraging students to explore the endless possibilities of robotics.
